

IMPORTANT UPCOMING PLANTING EVENTS

Come join the fun and lend a hand to help the endangered Behren's silverspot butterfly (*Speyeria zerene behrensii*). Participate in one or both of these South Coast efforts to plant the Silverspot's host plant, *Viola adunca* (blue violet, hookedspur violet or western dog violet). Hosted respectively by BLM and CA State Parks.

NOTE: Due to soggy site conditions, the Stornetta Lands planting has been moved to Sat. Feb. 15th. Please contact Kathleen (707-320-8895) or checking the Friends (<https://pointarenastornetta.org>) website for updates along with the new Sat Feb 15th date before coming to help at Stornetta.

CHANGED TO FEB. 15 ~~FEBRUARY 9~~
POINT ARENA — STORNETTA LANDS

FEBRUARY 11
SALT POINT

Help our local pollinators!
